

EVOLUTIVE LUMBAR BELT

Function:

The Evolutive® was developed to provide localized treatment of pain with its removable, height-adjustable postural strap system. The brace is discreet under your clothing without causing any material damage (optimal closure by micro-Velcro®).

Features:

- A belt in mono-filament seamless fabric which is fully thermo-sealed.
- The stays in the back are conforming, flexible and independent.
- Reinforced in the abdominal area for better retainment and to prevent wrinkling.
- Features finger slots for easier use.

Indications:

- Acute lower back pain.
- Sciatica.
- Herniated disk.
- Postoperative or post-traumatic recovery.
