

POP ARTHRITIS COMPRESSION GLOVE

The POP Arthritis Compression Gloves help to relieve the aches and pains, as well as the stiffness associated with arthritis of the hands and fingers. Our form-fitting gloves provide mild compression which helps to control the swelling and pain of the joints. The thermal lining holds in your body heat and helps to increase circulation and provide long-lasting relief. The textured palm provides a non-slip grip and open fingertips are convenient for everyday activities, allowing you to touch and feel without annoying barriers. All our gloves are latex-free.

WASH/CARE: Regularly hand wash cold, mild soap, and hang dry; close all hook and loop fasteners to prevent damage to other fabrics.

Package contents: 1 pair consisting of a left and right glove.
