

CP02 POST OPERATIVE SHOE

Features:

- Made from breathable material
- Open toe
- Ideal for toe and forefoot surgery
- Rigid reinforcement in the heel
- Ideal for heel afflictions.

Indications:

- Post foot and toe operations, for cases of difficulties in venous return (oedemas), when conventional footwear cannot be used.
- Bandages that immobilise the tarsotibial joint, thereby facilitating movement, especially in the lifting phase.

Bilateral design fits both left and right foot
