

POLAR BEAR[®] CRYO PNEUMATIC HIP/GROIN

The Cryo Pneumatic Hip/Groin is meant to help with post-op injuries and is designed to compress the hip or groin area. It has a pump that can be detached once you have the compression that the patient desires.

Advantages and Uses:

- Pneumatic compression with cold therapy
- Used after an operation
- Hip pains or aches
- Physical therapy
- Decrease swelling
- Reduces muscle spasms
