

POLAR BEAR[®] CRYO PNEUMATIC KNEE

The Cryo Pneumatic Knee has ease of use, a rich design, and makes it a great choice for usability at hospitals. The rate of the flow ensures that the temperature is evenly distributed.

Advantages and Uses:

- Knee sprains, helps reduce knee pain, and helps with inflammation.
- The Polar Bear Cryo Knee is the best cold wrap for a variety of common ailments. The removable knee ice pack can be maneuvered into many positions in order to target the injured area.
- It is made from a soft breathable material and has an open patella design with adjustable Velcro[®] closures.
