

Phantom[®]

Dorsal Night Splint

Your patients with plantar fasciitis can sleep easy with the Phantom[®] Dorsal Night Splint. The low profile design is so comfortable they will hardly realize they are wearing a night splint.

Dorsal Design

Low profile design enhances patient compliance and there are no hard surfaces to contact opposing leg during sleep. In addition to less bulk, the breathable CoolFlex[™] material is cooler to wear.

Adjustable Aluminum Stay

Fully padded internal dorsal stay may be bent to increase or decrease dorsiflexion to the desired level.

Non-skid Sole

Non-skid material sewn to sole provides better traction when patients need to ambulate during the night.

Elastic Tensioner

Elastic material sewn under midfoot provides additional tension on plantar fascia.

Indications:

- Plantar Fasciitis
- Achilles Tendonitis

Bilateral design fits left or right foot

Item #	Size	Women's shoe size	Men's shoe size
264122	small	5½ - 8	4½ - 7
264124	medium	8½ - 11	7½ - 10
